Prepare To Open Hearing On Code For U. S. Retailers

Code Of Fair Competition Is Planned For 1,500,000 Retail Stores Of Nation

COAL CODE NEARS COMPLETION TODAY

Prepare To Start NRA Drive In Nation; Modification Of Oil Code

International News Service Staff Correspondent

WASHINGTON, Aug. 22.—A new deal for 1,500,000 retail stores throughout the country was proposed today as the National Recovery Administration prepared to open hearings on a code of fair competition for the retail business.

Abolition of "cut throat" competition and sale of convict goods are among the proposals made by the retailers to cure long standing ills, and pave the way for shorter hours and higher wages for employees.

Over 5,000,000 included. Although National Recovery Administration Hugh S. Johnson was struggling to complete the coal and automobile codes, and thus bring the major manufacturing industries under the recovery law, the retail code embraces the largest single employing class in the country.

More than 5,000,000 wage earners will be affected, directly or indirectly, by the retail code, officials said. There are 1,499,720 retail concerns.

The retail code was proposed by retail furniture, hardware, mail order, clothing and furnishings, shoe and dry goods associations.

Adopting the recovery law provisions allowing unionization, the code proposes a general 40-hour week, with exceptions, and minimum wages ranging from \$12 to \$14 a week.

A fair practice agency is proposed in the code to insure fair competition. Among the practices which would be barred are selling goods at less than invoice cost, with ten percent added to cover labor costs partially, false advertising, "knocking" competitors and sale of convict or prison-made goods would be prohibited.

PA NEW OBSERVES

Charles Joseph, of East Long avenue, brought to The News Monday, one of nature's oddities, a tomato grown in three separate sections of equal size, resembling a fleur de lis.

Two food donation days will be conducted in late October by the Jameson Memorial Hospital Aide Society, and Pa New would like to remind the housewives of the city and county to keep this in mind while doing their canning. The food gifts will help in the maintenance of the hospital.

Pa New thought he was seeing some new breed of dog this morning in the downtown section. A closer examination showed it to be a chow dog, which had been shorn of its thick coat of hair.

By Friday the south side of the West Washington street bridge may be open to traffic, thus ending three months of one-way traffic.

The job of feeding the horses and menagerie of the circus here Saturday is not a little one. Pa New glanced over some of the items of food purchased during the day from a local feed supply store—and what a list! Included several loads of hay, straw, oats, etc.

Flames Trap Four Girls In Cottage At Park Near Buffalo

(International News Service)
BUFFALO, N. Y., Aug. 22.—Four girls were dead today after they were trapped in a blazing cottage at Allegany State Park.

They were Eileen Deinhart, 11, Catherine Frank, 18, Gertrude Sexton, 12, and her sister, Marguerite, 19.

Mrs. Bernard Sexton, mother of the sisters, was burned in a futile rescue attempt.

Park rangers said the cottage burst into flames when Mrs. Sexton attempted to start a fire in a gas-oil cooking stove. The four girls were lying on cots when the blast occurred.

They did not have chance to escape because of the rapid spread of the flames.

Coal Code Occupies President's Attention

(International News Service)
HYDE PARK, N. Y., Aug. 22.—Coal—the nation's chief source of industrial power and heat, drew President Roosevelt's attention as he rested at his ancestral home here today.

The President mentally reviewed gratifying report on the coal situation submitted to him verbally by his recovery administrator, general Hugh S. Johnson, by telephone, and awaited word from Washington that Johnson had completed a code of fair competition for the industry. The recovery chief was so pleased at the progress being made that he telephoned Mr. Roosevelt at midnight to report.

Johnson did not stay just when he would have the code completed and bring it here for the executive to sign. But he did report he had made "splendid progress" Mr. Roosevelt, therefore, felt it would not be many hours before the recovery administration started for Hyde Park with the code.

Coal Code Vital

The executive indicated just after arriving here Sunday that he expected the code to be whipped into shape within 72 hours. He expects it at any time now, although he realizes there was a mass of work before Johnson in drafting a set-up for this often troublesome industry.

Mr. Roosevelt regards the coal code as a vital part of the industrial set-up he is building with his recovery program. Directly and indirectly, the coal code will affect almost every portion of the nation's industry, and the price of coal is a matter of concern to almost every American.

There were a number of callers on the executive's schedule today, but their business would become secondary (Continued On Page Two)

Big Public Demonstration As Mendieta And Penate Return

(International News Service)
HAVANA, Aug. 22.—The biggest public demonstration since the designation of former President Gerardo Machado was staged today on the arrival of Col. Carlos Mendieta and Col. Roberto Mendez Penate, political leaders sent into exile during the Machado regime.

Col. Mendieta, organizer of the Union Nacionalista, a revolutionary party created to oppose the Machado administration, has been prominently mentioned as a successor to Carlos Manuel De Cespedes, present provisional president of Cuba.

Mendieta and Penate lived in New York during their years of exile.

One Arrest Made In Offutt Robbery

Practically All The Stolen Articles Are Recovered By The City Police

Police of the city have made rapid progress in clearing up the robbery discovered at the W. J. Offutt company store, South Mill and Water streets on Monday morning.

One of the principals in the affair, Frank Cartwright, Jr., of East North street has been arrested and confessed, police say, implicating Joe Orabinec of 15 Walter street, Oakland, as having also been in on the affair. Practically all of the stolen goods was recovered in Cartwright's room, following his arrest.

Cartwright has confessed according to the police, and he, together with Orabinec, stole the articles found missing Monday morning. Orabinec has not yet been apprehended.

Informations charging both Cartwright and Orabinec with larceny and breaking and entering will be made during the afternoon by Chief of Police John F. Haven before Alderman Wallace J. Ewing.

Nurse Maid In Lamson Home Is Reported As Secretly Married

(International News Service)
SAN JOSE, Cal., Aug. 22.—The Lamson murder trial, featured by another out-of-court sensation, was slated to go into its second session here today with the case of David A. Lamson, the defendant, ranging with the state's campaign to demand his death on the gallows.

The good-looking Stanford University Publishing House executive, charged with bludgeoning his pretty young wife, Allene, to death in their campus bungalow, prepared for another day of attorney's arguments in an attempt to agree on a jury.

With eight women and four men in the box, Superior Judge R. R. Syer was to let both defense and prosecution lawyers exercise their peremptory challenges, a privilege they did not avail themselves of yesterday.

However, the public was torn between the court session and the news that comely blonde Dolores Roberts, 19, nurse maid in the Lamson home, had been secretly married in Vallejo, Cal., to Warren Sorenson, 21, her high school sweetheart.

Interest Divided

SAN JOSE, Cal., Aug. 22.—A honeymoon, strange as the murder trial itself, divides the interest of the countryside. On this the second day of the trial of David A. Lamson, former Stanford University publishing executive, charged with the murder of his lovely young wife, Allene, in their campus home on the morning of May 30.

Dolores Roberts, important witness, former nursemaid in the Lamson home will not be in court today. Neither will she be honeymooning according to any of the standardized formulas for newly weds.

But nothing has been in conventional sequence in this amazing new development in the Lamson murder mystery.

Scott was trapped in an alleyway when he attempted to visit his former sweetheart. He did not resist. When he broke loose three months ago Scott had served two years and four months of his term.

Another Delay On Coal Code

Johnson Optimistic On The Chances Of Securing Code Acceptance However

NEGOTIATIONS ARE BEING CONTINUED

(International News Service)
WASHINGTON, Aug. 22.—Another delay in completion of negotiations with coal operators and union leaders on the proposed code for the coal industry was announced today by Hugh S. Johnson, national recovery administrator.

After conferences lasting for two days, Johnson was optimistic over the chances of obtaining acceptance of a bituminous coal code by the industry and labor.

Negotiations were to be continued during the day and night, while the coal operators and union labor considered the proposals of Johnson.

The stumbling block revolved around the general wage schedule and differentials in wages between the producing districts.

Operators from the West Virginia and southern fields were demanding a lower wage scale, declaring it was necessary to place them on equal terms of competition with the northern fields.

The question of unionization of the coal mines also appeared. Many of the operators were still seeking reservations in the code to assure continuance of the of the open shop policy.

Phil Murray, vice president of the United Mine Workers of America, claimed 98 percent of the bituminous miners are now affiliated with unions as a result of the campaign which began after passage of the recovery act.

Johnson Answers Critics Today In Washington Speech

General Johnson Reiterates Belief That All Stores Should Join N. R. A. Drive

(International News Service)
WASHINGTON, Aug. 22.—Critics who charge he has been promoting "violence," neighborhood man-hunts and boycotts of legitimate business firms in advocating the purchase of goods only from firms displaying the N. R. A. blue eagle, were denounced today by Hugh S. Johnson, federal recovery administrator.

He chose the opening of the public hearings on a code for the retail trade as an opportunity for reiterating his belief that the only way to protect "willing cooperators" with the government was to bring "economic death" to unwilling firms and business "chiselers."

He also outlined a policy of N. R. A. cooperation with retailers to prevent manufacturers from getting exorbitant profits for themselves by jacking up wholesale prices.

Johnson told the retailers that if they marked up prices now in anticipation of future price rises, or tried to get an extra profit for themselves out of the general price rise trend under the N. R. A. they would be "killing the goose that lays the golden eggs."

Violent Storm Pounds Middle Atlantic Coast

Coastwise Shipping And Air Traffic Is At Virtual Standstill

(International News Service)
NEW YORK, Aug. 22.—Coastwise shipping huffed harbors today and air traffic was at a virtual standstill as the second violent storm within 24 hours pounded the middle Atlantic seaboard, churning turbulent seas from Boston to the Delaware Capes.

Storm warnings fluttered along the entire coast, heralding the approach of hurricanes, brewed in Bermuda and swinging north, and the advent of a stiff nor'easter, working down the coast line from Newfoundland and the New England states.

70 Mile Velocety.

The nor'easter, attaining at times a 70 mile an hour velocity, struck in the wake of a gale which played havoc along the Jersey and Long Island shores Sunday, capsizing many boats, taking a toll of seven to ten lives and leaving at least three persons still missing.

Seabright, N. J., felt the bite of the storm when giant rollers swept the resort, forcing several summer residents to abandon their cottages temporarily, inundating the highway to Ashbury Park, and straining seawalls and bulkheads along the shore line.

Airports reinforced hangar doors and owners of planes rolled them into shelter from the storm.

Middle Of October Airship May Visit Chicago Fair

(International News Service)
BERLIN, Aug. 22.—Although definite plans for taking the Graf Zeppelin to Chicago's World fair have not yet been completed, the newspaper Tagblatt stated today that the giant German dirigible at least was certain to go to the United States this year.

According to the Tagblatt, the Graf will return to Germany via the United States in completing its final South American trip of the season, on which it is scheduled to leave its home port, Friedrichshafen, on October 14.

The paper said the Graf would fly from Pernambuco, Brazil, either to Miami and thence across the Atlantic, or to Akron, Ohio, Chicago, back to Akron, and then to Seville, Spain, for the first European stop.

If the weather is good at Chicago the Graf may land, the Tagblatt said, otherwise it would merely circle over the city and then proceed on to Akron, where there is a giant mooring mast.

Crash Which Killed Four And Injured 19, To Bring Prosecutions

NEW REGULATIONS LIKELY TO RESULT

(International News Service)
WILMINGTON, Del., Aug. 22.—Drivers of two trucks involved in the collision here early yesterday morning in which three men and a girl were fatally burned and 19 other persons injured will be charged with manslaughter, police reported today.

They are: Preston Watson, of Chester, driving a truckload of returning picknickers and Henry J. Knott, of Rockland, Md., piloting a tri-state freight truck loaded with metal drums containing highly inflammable nitro-glycerine or solumbule cotton. The victims were burned when the metal drums exploded, which had collided a moment before and showering the victims with flaming chemical.

Meanwhile, interstate commerce commissioners entered the investigation, inspecting the scene of the wreck and the exploded drums. It was expected the tragedy will result in speeding promulgation of a new code by the I. C. C. governing interstate transportation of inflammable and explosive materials.

PREPARE TO OPEN HEARING ON CODE FOR U. S. RETAILERS

(Continued From Page One)
sent to President Roosevelt at Hyde Park, within the next day or two. Johnson labored most of the night in an effort to bring operators and labor into agreement.

The automobile code was being shaped into final form for use in conferring with leaders of the industry.

Plans were maturing for the opening of the week's drive to sell the NRA to the nation. Administrator Johnson will participate in a Sunday radio broadcast.

A modification of the oil code signed Sunday night has been agreed to by Johnson as a result of the appeal of Secretary of Agriculture Wallace and Mrs. Mary Rumsey, chairman of the Consumers Advisory board.

The proposed change would per-

mit cooperative stores to sell gasoline to non-members. The cooperative would thus be exempt from the general provisions prohibiting the giving of rebate in the oil business.

"The Consumers' Advisory board objects to the provisions of the marketing section of the oil code in that they restrict the exemptions with respect to cooperative associations to those whose memberships are composed of farmers," said a memorandum of Mrs. Rumsey.

"This is entirely unsound economically as it has no respect for the consumers and should be eliminated from the code. The consumers object to any restraint of their right to organize economically in their own interest."

Meantime, the National Labor board was busily engaged in bringing peace to industry. The board renewed its efforts to settle the Hollywood film strike, which involves a fight of many years standing between unions.

Six Prominent In Bank Circles Indicted At Akron

Partial Report Is Made By Special Summit County Grand Jury

(International News Service)
AKRON, O., Aug. 22.—Six men prominent in the banking circles of the state today were indicted on charges of misapplication of bank funds in a partial report of the special summit county grand jury probing defunct banks here.

Those named in the true bills were:

Sterling B. Cramer, former president of the defunct First Central Trust Company and now president of the Fifty-Third Union Trust Company, Cincinnati.

George H. Dunn, former president of the old Central Depositors Bank (merged with the First Central Trust Company) and former president of the Ohio State Bankers Association.

George W. Merz, president of the Akron Clearing House Association and vice president of the First Central Trust Company.

Charles Herberich, president of Herberich - Hall - Harter Finance Company and a director of the First Central Bank and a former vice president of the old Central Depositors Bank.

Walter Herberich, secretary of the Finance Company and a former vice president of the Central Depositors.

William J. Rouf, former executive vice president of the Central Depositors, who is now serving a 16 year sentence in the Atlanta federal penitentiary for alleged embezzlement of funds of the bank.

Dolores and her young husband dodging the press, the public, dividing the days between lawyers offices, her mother's cottage in San Jose and the haven of the home of Dr. Margaret Lamson, older sister of David Lamson. Dolores had lived with Dr. Lamson since Decoration Day when Stanford University learned that Allene Lamson had been found murdered in a tub of water in the bathroom of her seemingly idyllic camp house.

Head, high, but cheeks scorching, she explained the announcement that she was an expectant mother on the eve of the trial with "I want the world to know as time goes on and I must appear at the trial as a witness that David Lamson is not responsible—He has been crucified enough without involving him in my troubles."

Well Known Fruit Grower Of Neshannock Township Announces Candidacy Today

M. M. (CY) INGHAM

In announcing my name as a candidate for Sheriff of Lawrence County, at the Primary Election, to be held on September 19th, 1933, on the Republican ticket, I wish to say that I have always been a Republican and voted the Republican ticket. I was born in Wampum, Lawrence County, Penna., on October 8th, 1885, and have always lived in Lawrence County. My father was the late G. B. (Gus) Ingham, who formerly operated stone quarries in Wayne Township, Lawrence County. I was educated at New Castle High School, Washington, Pa., and Washington and Jefferson College, Washington, Pa. I am a property owner and taxpayer, living in Neshannock Township, Lawrence County, Pa., where I am engaged in farming and fruit raising. I have never been a candidate for any office, until the present time. I am not and never have been connected with any faction, clique or organization in politics, or promises to any of them. I have not made and will not make any pre-election promises, to any person or persons, faction, clique or organization.

I believe I am perfectly able and competent, by education and experience, to conduct the office of Sheriff of Lawrence County, to the satisfaction of the Citizens of this County and with credit to myself, if I am chosen so to do.

If nominated and elected to the office of Sheriff, I pledge myself to conduct the office with the strictest economy possible, and will assume the responsibility for the conduct of the business of said office without dictation from anyone. My administration, if nominated and elected, will be a fair, square and honest deal to all the people of Lawrence County.

I solicit the votes of all Republicans, who favor a fair, honest and economical administration of the Sheriff's office.

"My skin was full of blemishes, pimples and blackheads and as the days went by my face got worse. The pimples were red and feasted and always came to a head. They burned when I washed my face, and always itched. I was always scratching and often lost rest. I had hardly any friends. I had to put up with this for many months until I sent for a free sample of Cuticura Soap and Ointment. I bought more and it was only a few weeks until I was healed." Man Gives Life In Vain Effort To Rescue Woman

New Jersey Man Enters Burning Building To Rescue Woman, Both Killed

(International News Service)
NEWARK, N. J., Aug. 22.—Christian Jedele, 45, of Union, N. J., lost his life in an heroic but vain attempt to save Mrs. Susie Calabrese, 33, trapped by an explosion and fire in the plant of the Celluloid Corporation today.

Jedele, a volunteer rescue worker, dashed into the building a moment after the explosion and attempted to drag Mrs. Calabrese to safety. Both were overcome by celluloid fumes and were dead when firemen reached them.

Six others were injured, three seriously.

Metal Workers Out On Strike

Report 500 Sheet Metal Workers At McKees Rocks Are Out On Strike

(International News Service)
PITTSBURGH, Aug. 22.—Sheet metal workers, 500 strong, were on strike at the Pressed Steel Car Company plant in McKees Rocks today.

The strike issue, leaders say, is whether the men will form their own union or submit to a company union setup. Picketing began at four o'clock today, effectively dissuading the few men who intended to go to work.

Strikers said 125 men who attempted to form their own union were fired by the company last week. John Zalonska, union president, said that a committee of 19 sent to the company officials Sunday also were fired.

A committee of 30 will try to meet with C. W. Wrenchell, acting works manager, today, Zalonska said.

One Bridge Span All That Remains

Old East New Castle Bridge Of Harmony Company Is Being Removed

Little remains of the long railway bridge that formerly carried the Harmony street cars across the valley beyond Cascade Park. All that remains of it now is one span that crosses the B. & P. tracks, and the cement abutments.

The rails and ties and the iron work have been removed and the one remaining span stands alone looking as though some giant had sliced both its ends off.

The other bridge at East New Castle has also been removed, while along the right of way that ran into New Castle weeds and grasses and shrubs have almost obliterated any trace of the old railway system.

Change Is Made In Registration Hours

Attention is called to a change in the hours during which voters may register on August 31, the first registration day in this city. Under the new rules, the registrars will be at the different polling places from 8 a. m. to 12 o'clock, noon; from 1 p. m. to 6 p. m. and from 7 p. m. until 10 p. m. Eastern Standard time.

PRUDENTIAL PICNIC AT FRED RENTZ CAMP

At the Fred Rentz Y. M. C. A. Camp on Saturday a most enjoyable picnic was participated in by members, wives and families of the Prudential Insurance Company of the New Castle District of which James E. Deegan is superintendent.

Early in the afternoon the men were busily engaged in a baseball game while the ladies gained much entertainment in the mushball event. Messrs Deegan, Young and Goodwin were in charge of the races and guessing contests that included all ages.

Earl E. Keifer and his committee consisting of F. D. Armstrong, A. M. Staley and H. R. Plotts arranged the dining room for a 6 o'clock dinner. A sumptuous menu was served to guests numbering 150 including Dr. and Mrs. McCombs, special guests. Speeches and the making of awards followed with Mr. Deegan presiding as toastmaster and donor. Prizes went to E. Armstrong, Patsy Sweeney, Geraldine Flick, Betty Rae, Bruce Hamilton, Ed Conlon, Robert Hamilton, Jr., LeRoy Armstrong, Mont Johnson, Jack Black, Mrs. H. B. Linton, Mrs. Frank Goodman, Paul Christian, Mrs. George Maxwell and Mrs. Earl E. Keifer.

Music and the singing of old fashioned songs with piano accompaniment followed and a program of dancing concluded the affair.

HOLD OPEN HOUSE FOR CALIFORNIANS

As a courtesy to Bryant Washburn, Ruby and Nancy Kelley of Los Angeles, California, Mr. and Mrs. Roy C. Miller, 215 Fairfield avenue, held open house in their home Saturday evening when more than one hundred friends and relatives of the honored ones called to renew old friendships and ties as this was the first visit to New Castle for the trio in seventeen years. They were former residents of the city.

The evening was most informal and the home was lovely with vases of summer flowers arranged about the rooms and centering a prettily appointed table from which refreshments were served.

Mrs. Miller was assisted by Mrs. David Bender, Mrs. Chester Johnson, Mrs. Wendel McClurg and Gladys Poole.

EXECUTIVE BOARDS WILL MEET FRIDAY

A dinner meeting of last year's executive board and the newly chosen Business and Professional Women's Club will take place on Friday evening of this week at the club's Rae Muirhead cottage, at Lakewood.

It has become an annual custom for the two boards to meet together before the opening of the B. P. W. activities.

It was announced at Monday's club picnic that Miss Beulah Norris, local relief director, will be the speaker at September 11 meeting in the Y. W. C. A.

Nazarene Picnic

Over two hundred persons attended the annual outing of the Church of the Nazarene, which was held Saturday at Gaston Park with dinner and supper both served under the trees on long tables.

An interesting program of sports and stunts kept everyone busy during the afternoon. Mrs. Kelly's class had a penny scramble, which was won by Mary Montgomery, Billy Smolinik and Helen Kaufmann; Mrs. Campbell's class had a peanut scramble, won by Betty Knight; Mrs. Lang's class, twenty-five yard dash, Lloyd Moore, winner; Mrs. Jacob's class, horse shoe pitch, Rose Lang; Mr. Dean's class, ball bouncing, Jerry Moore; Mrs. Chamber's class, fifty-yard dash, Lois Lang; Mrs. Rice's class, balloon kicking, James Morris; Mrs. Hill's class, necktie race, Mary Gordon; Mrs. Williams' class, backward and forward race, Mary Fawcett; Mr. David Whipple's class, bag bursting, James Campbell; Mrs. Fobes' class, nail driving, Mrs. Dale Williams; Mr. Martin's class, fishing, John Smolinik and Sam Haggerty; Mrs. Downing's class, name copying, Mrs. David Whipple.

The Washball game between the married and single men resulted in a victory for the married men eight to six.

M. And M. Club

Miss Katherine Ango, Ray street entertained members of the M. and M. club in her home Monday evening and soon after all the guests had arrived the hostess invited them to a large bonfire near her home where the evening was spent in campfire fashion.

Croquet was played by the light of Japanese lanterns and Mrs. Lucille DeVore won the prize. A most appropriate lunch was served the guests as they seated themselves about the fire.

The hostess was assisted by her sister, Mrs. Charlotte Shellenberger. Plans were made for a hamburger fry to be held September 8 at the McClelland cottage on the Slippery Rock, when the friends and husbands of the members will be guests. Mrs. Dorothy McPhillips, Mercer street, will entertain the club at the next regular meeting September 18.

BUSINESS ATMOSPHERE
Your business place should be devoid of nonsense and horse play but it need not take on the clammy atmosphere of a morgue.
There are too many places where people must talk in undertones. Employees under a strain give a visitor the impression that he should hurry through what business he has and get out.
If you want customers, and what business can exist without them, you must give friendly, courteous treatment.
When a customer is met by a tenseness in every word and action among those with whom he plans to spend his money, he won't go back any oftener than is absolutely necessary.
There is that perfunctory "thank you," utterly failing to prove there is any sincerity back of it.
People don't like to trade where they are waited upon by a lot of machines or people who act like machines.
When they have business to transact, it means money to the owner of the place and the spender is entitled to courteous treatment, certainly.
How do you and your clerks greet customers?

Just Folks

By EDGAR A. GUEST

A MAN'S WAY
In matters like this little judgment have I:
"May we go to the store chocolate candy to buy?
May we go swimming or may we have gum?
The ice cream man's coming, please may we have some?"
Those are questions I dodge every hour of the day
With: "Go to your mother and see what she'll say!"

Some matters of policy I must decide.
But from "May we have popcorn?" I step right aside.
"May we go bare-footed? May we have cake?
May we go picnicking down by the lake?"
Are questions from which I retreat in dismay
With: "Go to your mother and see what she'll say!"

Let something arise that's of vital concern
I'll ponder it through till the right course I learn.
But "May we have peanuts?" and "May we have pop?"
Are problems which instantly cause me to stop.
So I straddle the issue in a man's wisest way
With: "Go to your mother and see what she'll say!"

The World AND THE Mud Puddles

TOO MUCH CREDIT
"This is a wonderful suit I'm wearing."
"It looks very ordinary."
"But the wool came from Australia. English merchants sold it to a Scottish factory, it was woven in Saxony, made into a suit in Berlin."
"Nothing wonderful about that."
"No; the wonder is that so many people can get a living out of something I've never paid for!"
Is this the manner in which the "N. R. A." is going to work?

Pact With Haiti Stirs Talk Of New Deal In Latin World

Proposed Withdrawal Of Marines Interpreted By Americans As Change Of Policy And Likely To Improve Foreign Relations

An executive agreement which has been entered into by the United States and the Republic of Haiti is interpreted in this country as an important milestone in Latin-American relations. It is believed that the agreement will create a favorable impression among foreign governments and will increase the value of Pan-American conferences. An interesting fact that is brought out in the course of the discussion is that the marines who are to be ordered to leave the island republic were sent there by Mr. Roosevelt when he was assistant secretary of the navy. The agreement gives self-government to the islanders.
"The signing of the Haitian treaty," according to the ROCHESTER TIMES-UNION, "will, no doubt, have a favorable effect upon our relations with Latin America in general, where American 'imperialism' is regarded with great suspicion."
The TIMES-UNION thinks it "may do something to ease matters at the trade conference which is to open in Montevideo this fall." That paper emphasizes the point that the executive agreement "need not be submitted to the United States Senate, but will have to run the gauntlet of the Haitian Senate, and many meet there a fate similar to that negotiated less than a year ago." It is added that "the customs service will remain under American supervision, but only so long as necessary to retire, by the building up of a sinking fund, the loans made to Haiti in 1922."
"By withdrawal of marines," says the OMAHA WORLD HERALD, "the United States will have taken a long step away from its adventure in dollar diplomacy." The WORLD HERALD continues: "The Haitian adventure began in 1915, after four or five years of terror and bloodshed and revolution in the island. The marines of course—by methods at which they are expert—brought peace to the island. It has been charged that the bold Smedley Butler, always a picturesque figure and always one who believed in direct action, got the marines to ratify a treaty by the expedient of imprisoning the senators until they signed, but that charge has never been admitted or proven. However, the marines restored quiet, and the Americans 'supervised' the customs to assure repayment. The formula is familiar. It has not always brought the greatest credit to the United States. Sometimes crimes may be committed into the name of peace and tranquility. But we're out of Nicaragua now, and we're going to get out of Haiti. The news, on the whole, is good."
The United States, avers the SAN ANTONIO EXPRESS, "desires to terminate the occupation of Haiti, which was necessitated partly by conflicting European interests in the West Indies and the Caribbean region generally. Haiti should profit by the example of the adjacent Dominican republic. The latter country also was torn by domestic strife at intervals from 1892 to 1916, but now is progressing notably under President Rafael L. Trujillo, who was a United States marine corps officer during the Great

TUESDAY, AUGUST 22

1485—The battle of Bosworth, where Richard III. of England lost his kingdom and his life, and produced Shakespeare with the subject for a play written 100 years later. These lines (from Act V, Scene IV) have made Richard better remembered than any of his accomplishments or misdeeds:
Catesby: Rescue, my Lord of Norfolk, rescue, rescue!
The king enacts more wonders than a man,
Daring an opposite to every danger: His horse is slain, and all on foot he fights. Seeking for Richmond in the throat of death.
Rescue, fair lord, or else the day is lost!

(Enter King Richard)
Richard: A horse! a horse! my kingdom for a horse!
Catesby: Withdraw, my lord; I'll help you to a horse.
Richard: Alas, I have set my life upon a cast.
And I will stand the hazard of the die: I think there be six Richmonds upon the field:
Five have I slain today instead of him.
A horse! a horse! my kingdom for a horse!

The Richmond referred to there-in was Henry Tudor, Earl of Richmond, who succeeded his victim as Henry VIII, became the father of Henry VIII of ill fame, established the House of Tudor upon the throne. (The house expired with the virgin Elizabeth before Shakespeare died.)

1654—The first Jew known to arrive in America, Jacob Barsimson, reached New Netherlands (New York) from Netherlands. Aser Levy and Barsimson were the first Jews to win all the rights and perform all the duties of American citizenship.

1741—George Frederick Handel began the composition of his greatest oratorio, The Messiah, completed it 23 days later. It was first performed in Dublin, Apr. 13, the next year. On the "second date" in 1713, Handel appeared King George II's.

1851—The Squadron Cup was won by the yacht America in the international regatta at Isle of Wight. The trophy, renamed the America's Cup, was put up for contests between British and American yachts; it was sought, unsuccessfully, many times by Sir Thomas Lipton.

Notables Born This Date—John B. Gough, b. 1817, an habitual drunkard who took the pledge, became a renowned prohibition advocate and lecturer. (Samuel P. Langley, b. 1834 astronomer, physicist, and inventor of the balometer for measuring radiant heat and of an airplane with a steam engine. The latter was damaged in launching and did not demonstrate its designer's theories regarding mechanical flight. But his investigations into lifting force and air resistance were invaluable to later aeronauts. Excessive claims of his friends, tending to belittle the achievements of the Wright brothers, have caused the original Wright plane to be lost to the U. S. It is in the British museum.) Claude Debussy, b. 1862, French composer. He began winning prizes as a composer before he was 20, devoted 10 years to composing the opera Pelléas et Mélisande. Only NRA Firms Can Be Paid Any Federal Money

Every Cent Of Federal Money
Used In Pennsylvania Must
Be In NRA.

By ARTHUR C. WIKER
Special Washington Correspondent
New Castle News
WASHINGTON, D. C., Aug. 22—

Every cent of federal money going into Pennsylvania under the administration's relief program hereafter must be paid only to those participating in the NRA drive, it was made emphatically definite at three relief administering agencies here today.

It was stated at the Federal Emergency Relief Administration that the direct unemployment relief being contributed to the Pennsylvania Relief Commission must be used in the purchase of goods from those operating under the NRA drive, it was said that violation of this stipulation by any municipality would result in the withdrawal of the federal grant. Administration officials, however, admitted they were depending upon the good faith of those in charge of state relief programs rather than upon any detective work to enforce this provision.

Similar ultimatums that federal money allotted to Connecticut for construction must be paid only to NRA cooperators came from the Public Works Board and the Public Roads Bureau. It was ruled that contracts for roads and contracts under the public works program might be awarded only to contractors operating under NRA codes. Failure of the state to abide by this specification would mean cancellation of federal loans and grants for such work.

Dates For Opening Of Rural School Terms Are Varied

Plaingrove Schools Among
First To Start Fall Term
On August 28

Plaingrove township will be among the first of the county schools to start their term this year, having signified their intention to County Superintendent of Schools John C. Sylling, of opening the term on August 28, one week from today.

Several of the other county school districts are also expected to start their terms on that date but have not as yet reported to the county superintendent's office.

A majority of the school districts which have reported to date, have signified September 5, as their opening day, including the schools of Wilmington township, Slippery Rock township, Pulaski, Mahoning, Washington and Enon Valley.

Union township schools will open on September 6, and South New Castle Boro schools on September 7.

No designation has been received from the other districts, some merely signifying their intention of opening "around the first of September," while others have left the opening date blank.

Half Million To Get Road Work East Brook Road

(International News Service)
WASHINGTON, Aug. 22—Nearly half a million men will receive employment on road construction alone, Secretary of Interior Ickes, public works administrator, estimated today.

The estimate is based on the fact that on 465 highway projects approved to date, on which 67 contracts have been awarded, will give 41,119 men direct employment, although only \$32,368,453 of the \$400,000,000 road fund has been allotted.

For every man employed it is estimated two others receive work as an indirect result.

Hunter Shoots Enraged Grizzly In Dead Of Night

(International News Service)
ESTES PARK, Colo.—A weird battle in the dead of night between an enraged bear and a hunter ended with the death of the bear.

L. E. Burgess, Denver, and three companions were camped in a rugged mountain region north of here. At midnight one night they were awakened by a rustling in the underbrush outside their tent.

The men directed flashlights toward the noise and saw two huge shaggy forms waddle into the timber.

A few seconds later they heard a whining in the tree tops and realized that two bear cubs, frightened by the lights, had sought safety in the trees and become separated from their parents.

The men decided to capture the cubs, and two of them, with ropes and sacks, climbed into the tree after them.

There was a sudden growl of rage and that big male bear charged into the clearing.

It was so dark Burgess could not see the sights on his rifle, but he aimed it in the direction of the noise and fired.

The bullet thudded into the bear's brain and it dropped dead—a few feet from the hunter.

HOOVER IS ON FISHING TRIP

(International News Service)
PALO ALTO, Cal., Aug. 22.—Former President Herbert Hoover was unavailable today for comment concerning reports he will be called as a witness in the grand jury investigation of closed Detroit banks.

Mr. Hoover and several close friends left several days ago on a trout fishing trip in the Siskiyou

Mountain district of northern California and southern Oregon, his secretary reported.

The decision was reached to meet on Thursday evening, when permanent officers of the organization will be named. It was also decided to serve refreshments at this special meeting.

Tariff Policy And NRA Are Hand-In-Hand

Number Of Complaints That Foreign Manufacturers Are Taking Advantage Of NRA

(International News Service)
WASHINGTON, Aug. 22.—The administration made its first move today to link the policies of the N R A and the U. S. tariff commission. Franklin O. Billings, formerly a valuation expert with the commission, took up offices in the N R A to act as liaison officer between the two organizations.

Behind this move is frank recognition of the fact that some of the N R A's policies, higher wages and reduced hours of labor, will require cooperation from the tariff commission if foreign producers are not to "chisel in" and take advantage of the American market with their lower wages, longer hours and low production costs.

A number of complaints already have been received that foreign producers are beginning to flood the American market with goods manufactured under conditions which the NRA won't tolerate for American firms.

It will be Billings' job to coordinate the policies of the two organizations to the end that the American producers may compete in his own market with the products of lower-wage countries abroad.

Canners Plan To Boost Contracts

Seek To Increase By 25 Per Cent Contracts With Sweet Corn Growers

(International News Service)
WASHINGTON, Aug. 22.—Concerted action to increase by 25 per cent the contracts with sweet corn growers will be taken by canners under a program sponsored by the Farm Adjustment Administration. The growers will gain \$750,000 through this action, Charles J. Brand, farm co-administrator, declared. A sliding scale of increases was approved. States affected by the program are Maine, New York, Maryland, Virginia, Indiana, Ohio, Illinois, Iowa, Nebraska, Michigan, Wisconsin, Minnesota, Pennsylvania, Tennessee and Kentucky.

Street Railway Company Signs NRA Agreement

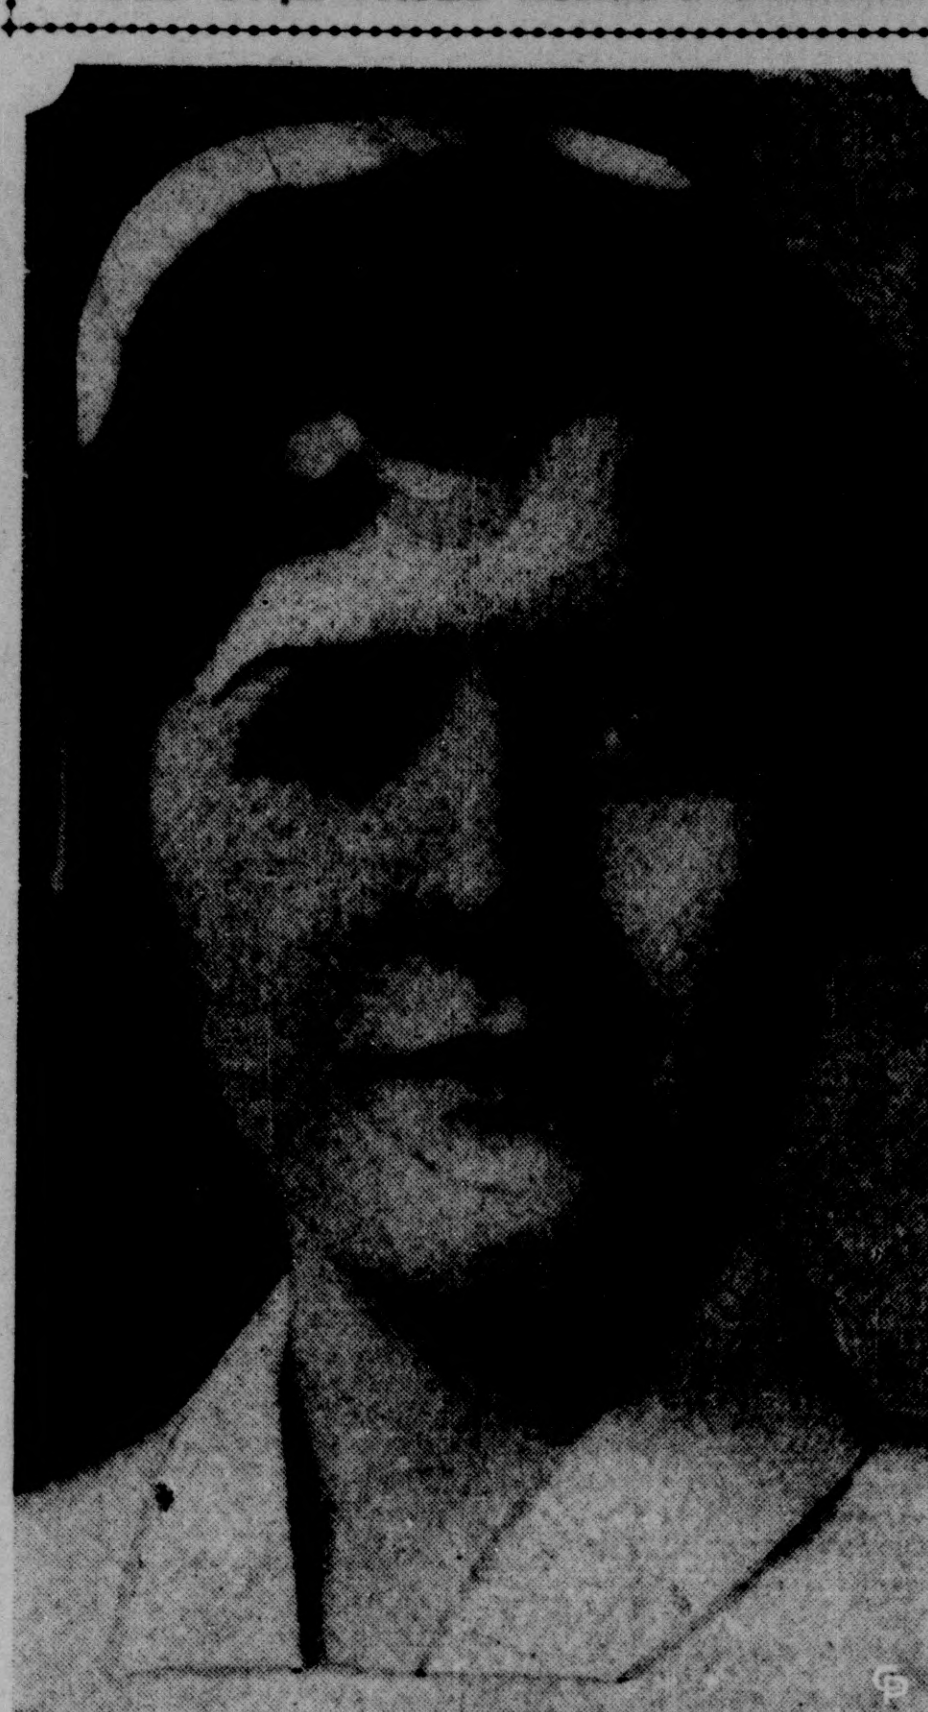

Superintendent T. C. Moore, announced today that the New Castle Electric Street Railway Company had signed the N. R. A. agreement under the code of the transit industry, as filed with the National Recovery Administration in Washington.

Due to the nature of the transportation business, involving continuous service approximately twenty hours each of the seven days of the week, some time will be required to work out the application of the code.

BOY IS INJURED BY THROWN STONE

Police were called to the State St. district today to investigate some trouble between a white boy named Smith and a colored boy named Robert Bailey and residing at 712 State street. They found that the latter had thrown a stone which hit and cut the Smith boy on the head. The Smith boy had to be removed to a physician to have his wound cared for, while the Bailey boy was ordered in before the mayor.

Get Substitute Provisions For Blanket Code

Chamber Of Commerce Receives Information On Various Industries

Pending the final agreement on the codes for various branches of industry, the N. R. A. has compiled a summary of the substitutions to the President's Re-employment Agreement, that have been approved by the Administration, which they have sent the New Castle Chamber of Commerce.

Any person interested in any particular branch of industry and the substitute code approved for the same, may see the copy which has been placed on file in the Chamber of Commerce.

Persons desiring this information are asked to present themselves in person, rather than to make inquiry over the telephone.

Police Dogs Guard Gardens, Nugent Says

Gardens Good And No Stealing At Disposal Plant Ground

Frank Nugent, superintendent of the city disposal plant grounds today said that the gardens at the disposal grounds show good results and that there has been no stealing. "Do the gardeners have night watchmen?" he was asked.

"No, Sir, don't need 'em," replied Frank. "I have two good night watchmen and I turn 'em loose at 7 p. m. d. s. t. every night. The watchmen are police dogs, he added.

WESTERN COYOTES TERRORIZE FARMS

(International News Service)
ROSWELL, N. M.—The recent deaths of four persons, 1,000 sheep and many cattle, especially calves, led ranchers of southwestern Texas and parts of New Mexico to a drastic campaign to eliminate rabid coyotes from the ranges of the south-west.

The present market prices for sheep do not warrant the purchase of expensive rabies antitoxin, ranchers declared, and the animals have been allowed to die after being bitten by coyotes.

ONE glance—and you know that Oldsmobile "belongs" in the smartest company. Take one short drive, and you'll also know that it ranks with America's finest in the quality of its performance! At the moderate price of the Six and Straight Eight, such performance is literally amazing. For, until now, such power... acceleration... speed... and smoothness were expected only in cars of far higher cost. But Oldsmobile has set new standards—in both style and performance—for cars of medium price. Enjoy, just once, its performance—and you'll want an Oldsmobile. We will gladly place a car at your disposal—at any time you say.

An amazing book—"How to Test the Performance of a Motor Car"—has been written by the testing engineers at the General Motors Proving Ground. With this book, you can judge any car's performance quickly and accurately. It's free—and you have never seen anything like it! Come in and get your free copy today. It is unbiased—does not advertise Oldsmobile.

Waives Hearing On Stamp Charge

Before Alderman James C. Brice, Monday evening, David A. Pitzer, charged with violating the Revenue Act of 1933 which requires tax stamps to be affixed on packages of alcoholic beverages, waived a hearing.

The case was brought by W. L. Beachery of the State Department of Revenue and arises out of a consignment of wine delivered to S. C.

Wolfe of Bessemer. Beachery contends that revenue stamps were not affixed in accordance with the law. Pitzer contends that he sent the stamps along with the wine, and that they were to be affixed by Wolfe. The trial will probably hinge on this technicality.

Cases Taken Over By Emergency Relief

County Welfare administrator M. B. Hogue reports that about 250 cases have been taken over from his department by the Emergency Relief organization during the past week. He is expected that about 500 additional cases will be taken over within the next ten days. The emergency Relief is expected to take over all but the unemployable cases that is, cases in which the recipient of relief, is unable to work, even if work is provided.

The Recovery Act reminds us that any act will go over big if the audience is in a humor to applaud.

Troop Greeted By Rainstorms At Mt. Gretna

Rain Falls Saturday And
Sunday, After Local Boys
Arrive At Camp

START TRAINING SCHEDULE MONDAY

By Sgt. Forest L. Florida, Special
Correspondent of the New
Castle News.
COLEBROOK, Pa., Aug. 22.—
Troop "F" arrived at Colebrook, Pa.,
at 5:20 a. m. Saturday morning,
about an hour ahead of scheduled
time. The trip enroute to camp was
without any unusual excitement, in
fact every one was glad to "roll
in" as soon as the porters had the
berths made up.

As customary, the first job on ar-
rival in camp was to unload equip-
ment from the baggage car; draw
cots; assign the men to their tents;
set up "housekeeping" for two weeks
training; and draw rations for the
men and forage for our horses.
While this all meant plenty of work,
the day passed quietly and smooth-
ly, in fact was about the easiest first
day in camp that can be recalled. All
details were handled in a particular
efficient manner and by Retreat the
troop was functioning like veterans.

Our first Sunday in camp was
spent in putting the finishing touch-
es on here and there. Twenty addi-
tional horses were issued to us, giv-
ing the troop a total of fifty-one
animals, with expectations of about
five more being issued. This will
mount the entire troop available
for mounted work every day, less
the necessary details.

Honor Colohan
Sunday evening we attended
church services conducted by our
Chaplain, Lt. Wilcox. After the ser-
vices, our Colonel, Arthur C. Colo-
han, was presented with a silver
service, consisting of a beautiful
silver tray and twelve cups; the tray
representing the regiment as a
whole, with a cup from each troop
personally presented by the First
Sergeant. This testimonial was pre-

mented to the Colonel in recognition
of the fact that he has been in com-
mand of our regiment for ten years.
He is a grand "old man" and has
the respect and cooperation of the
entire regiment, both individually
and collectively.

As usual the weather encountered
here is a favorable topic for con-
versation. This year it was raining
just prior to the time we left the
Armory to entrain; it rained just
after we arrived; a hard rain Sat-
urday night and rain again today.
From present indications we may
have a repetition of the 1928 camp
when we experienced thirteen days
when it never failed to rain and the
sun failed to shine until the after-
noon of the day previous to break-
ing camp. However, we are hoping
for plenty of sunshine.

Today starts the regular camp
training schedule, with the morning
being spent in mounted drills, with
a general shake-down.

According to the camp schedule
as in effect now, this troop will
mount regimental guard only once
during camp and that will be on
Thursday, August 24th. This is
plenty as the troop on guard is re-
quired to furnish all working de-
tails during the twenty-four hour
period on guard, which means work
and plenty of it.

VICE SQUAD WIPED OUT BY MAYOR

YOUNGSTOWN, O., Aug. 22.—
The investigation of the Youngs-
town police department, which fol-
lowed the arrest of two city patrol-
men last week on robbery con-
spiracy charges, took a sudden turn
today when Mayor Mark E. Moore
ordered the abolishment of the vice
squad as a separate police unit in
a sweeping shake-up.

Mayor Moore acted after a con-
ference with Police Chief Leroy
Goodwin and after the Taxpayers
League had demanded city council
investigate the entire police force.

Why—
You're always saying
Chesterfields taste better

— I wish you'd tell me why

Well, I've worked in tobacco; I've manu-
factured cigarettes . . . and I'll tell you why
Chesterfields taste better.

For a cigarette to have a good taste, it
must have first the right kind of Domestic
tobacco. This means ripe, mellow, sweet to-
bacco, filled with Southern sunshine. Then,
blended and cross-blended with this tobacco
there must be the right quantity of the right
kinds of aromatic Turkish tobacco . . . tobacco
that has a pleasing flavor and aroma.

Aroma, as you know, adds to the taste.
It's just like the pleasing aroma from certain
foods. It's appetizing. It makes the food taste
better. It makes the cigarette taste better.

Then again, for a cigarette to have a good
taste, it must be made right. The size, the ciga-
rette paper, everything about it must be right.
Just try Chesterfields.

National Farm Outlook

By ARTHUR H. JENKINS
Editor, The Farm Journal
Written for Central Press

The reason why it has been
fairly easy to work out schemes for
aiding the prices of cotton, wheat
and tobacco—whether those schemes
work perfectly or not—is because
these great staples have to be "pro-
cessed."

Nobody eats any great amount of
wheat in the raw state, nor is cotton
consumed from the boll nor even
from the bale; nobody smokes or
chews unprocessed tobacco leaves.
Hence it is not so hard to slap a
processing tax on the mill or manu-
facturer who puts these products in
proper form to be consumed.

It is very different with most
other farm products. And the reason
why the authorities at Wash-
ington are having such a struggle
over the price of hogs is just here:
Many hog raisers still look back
longingly to war times and pre-war
days, when we sold great tonnages
of hams, bacon, pork and lard to
European countries. Our surpluses
of other days were disposed of thus,
and domestic prices were generally
good.

Other more realistic farmers have
come to the conclusion that the for-
eign market is gone, at least as long
as the war debts and other debts
make this a creditor nation and so
an importing nation. They are look-
ing toward a reduction of hog
supplies to the needs of the domes-
tic market, and the plan outlined
above seems as promising a method
as any.

At the best, however, it is going to
be difficult, what with hogs on mil-
lions of farms outside the corn belt,
and local markets at the doors of
almost all of them.

COUZENS ASKS THAT HOOVER GIVE TESTIMONY

Senator Requests Hoover Be Called

Former President Not Obligated To Testify In Detroit Hearing, However

BANK HEARING IS BEING CONTINUED

(International News Service) DETROIT, Aug. 22.—Former President Herbert Hoover will be called as a witness in the grand jury investigating of closed Detroit banks at the request of Senator James Couzens, Prosecutor Harry S. Troy announced today.

Couzens, at the end of yesterday's session in which he had given sensational testimony blaming Detroit bankers for collapse of their institutions, requested Hoover be asked to testify.

"There is one director who was told by President Hoover I was a very dangerous man," he said, "Now I earnestly urge you, Mr. Attorney General, to try to get Mr. Hoover to testify. That would give Mr. Hoover an opportunity of telling why he felt I was a bad and dangerous man."

Troy said he would immediately send to Palo Alto a request that the ex-president appear and tell what he knows of the government's side of the Detroit bank collapse which brought on last February's national banking crisis.

Several previous moves to bring the ex-president here have been dropped. Circuit Judge Harry B. Keldan who is sitting as a one-man grand jury, has no jurisdiction out-

side of Michigan and there is no way to compel Mr. Hoover to appear. Senator Couzens himself was outside the court's jurisdiction, but asked to be permitted to testify after witnesses had accused him of being responsible for the failure of A. R. F. C. loan which, they said, would have forestalled the crisis.

Grand jury officials are hoping that the ex-president may also see fit to come here and defend himself against the reflections cast by witnesses upon his administration's conduct of the bank crisis.

Steen Will Be Toastmaster At Gathering Here

Will Preside At Dinner In Connection With Democratic Recovery Convention

Assurance has been received from Assistant Postmaster General Clinton B. Eilenberger, that he will be present for the dinner and meeting, Saturday evening, when the Democratic Recovery Convention convenes at The Cathedral.

Invitations have been extended to President Franklin D. Roosevelt and General Hugh S. Johnson, head of the Administration's recovery movement, the committee in charge of arrangements stated today.

Richard Steen, superintendent of mails at the local post office, will be toastmaster of the dinner, which will be served promptly at 6:30, and the program which will follow will include addresses by a number of prominent Democratic leaders of state and national importance.

Attorney W. J. Baer, in charge of the dinner arrangements, stated this morning that only one thousand tickets are available for the dinner, and those purchasing tickets will be given reserved seats in the downstairs section of the auditorium, along with the ten delegates and alternates from each county precinct. There will be a 20-piece band and 10-piece orchestra present for the occasion.

State Recovery Board To Meet

Initial Session As Arbitration Body To Occur At State Capital On Wednesday

(International News Service) HARRISBURG, Aug. 22.—Gov. Gifford Pinchot completed arrangements today for the initial meeting of the state recovery board, appointed by President Roosevelt as an arbitration body, here tomorrow.

The board will review cases of alleged violations of the national recovery program. The members are M. E. Comerford, Scranton; Matthew H. McCloskey, Jr., and J. David Stern, Philadelphia; Louis C. Emmons, Swarthmore; Charles Lynch, Greensburg; S. Forry Loucks, York; John A. Phillips and Warren W. Dalley, Jr., Harrisburg.

When the board cannot reach a decision, the case will be referred to district managers in Pittsburgh and Philadelphia.

Mr. and Mrs. George McCracken, of Jacksonville, were Sunday dinner guests of Mrs. Jennie Walton Sunday.

Mr. A. T. Hunt, Mr. and Mrs. Will Enser and son, Robert, of Warren, Ohio, were recent callers in this vicinity.

Miss Sara Brown of Washington, Pa., is spending a few days with her niece, Mr. and Mrs. Norman Hunt and family.

Mr. and Mrs. Chauncey Rhyl and family of Sandy Lake, were callers at the home of Mrs. R. J. Cameron one evening recently.

Resume Work On Erection Of Plant

Plant Destroyed By Fire In Spring Now Being Rebuilt

WILL MANUFACTURE BATTERIES SHORTLY

Simplex batteries will continue to be made in New Castle. The work of rebuilding the plant of the company, destroyed by fire earlier in the year has gotten under way again, and the building is nearly ready for roof.

The new plant will be one hundred feet square, one story except for a pent house effect in one corner for office space, and will be constructed of brick, steel, concrete and glass. It will be as nearly fireproof as human ingenuity can make it and the danger of a recurrence of the disastrous fire which leveled the former building will be largely obviated.

For several months it was a question whether the building would be rebuilt here, or the business transferred to another city. E. D. Hawk, the general manager finally had the matter arranged so that New Castle retains the industry. Orders are already piled up on the books, he states, and the work of getting the building ready is being rushed.

With good weather the building

should be ready about the latter part of September and production will probably start about October 1. The company makes automobile batteries of all types and dealers who handled them before the fire are urging speed in the rebuilding as they are getting calls for Simplex batteries.

While the new building will be smaller than the former one, it will be much better suited to the battery company. The production line can be laid out properly and this fact alone will mean much in time and expense.

The plant is located just beyond the edge of the city in Shenango township.

DOG BITES WOMAN RESCUING HER CHILD

BROWNsville, Pa., Aug. 22.—Mrs. Charles A. Miller, wife of the former supervising principal of South Brownsville schools, was severely bitten about the legs when attacked by a giant German shepherd dog at the home of Mrs. Grace Woods, Jefferson township.

Mrs. Miller was attacked in rescuing her five-year-old daughter, Mary, who was sent to the Woods home to pay for farm produce.

HAMILTON STREET STORE IS ROBBED

Frank Conco, proprietor of the Economy Market, 1703 Hamilton street, reported to the police late Monday afternoon, that his place of business had been robbed Sunday night. Apparently the thieves hid in a back room and broke the door into the main part of the store.

Two cartons of cigarettes were taken, while the thieves ate two pies and drank some ginger ale while in the store.

Cuts dishwashing time in half

What floods of suds!

what instant sparkling soapiness!

No more waiting for suds—no more greasy dishwater. Super Suds dissolves instantly. Leaves dishes sparkling clean in half the time.

MAKE THIS EASY TEST YOURSELF!

Put a teaspoonful of Super Suds in a glass. A teaspoonful of any chip, powder or cake soap in another. Fill both glasses with moderately warm water. Instantly every bit of Super Suds dissolves. While chips stay gummy, half dissolved. Dramatic proof of how much faster Super Suds works than any other kind of soap.

BECAUSE it's faster. That's why Super Suds has become America's leading dishwashing soap. It's made in tiny hollow beads—the only form in which soap dissolves instantly—completely.

Saves time in 4 ways

How does this save dishwashing time? 1. No hot water necessary to dissolve soap. 2. No waiting for suds. 3. Instant soapiness, cuts grease like magic. Dishes come shining clean in no time. 4. You don't even need to wipe dishes. Just a hot rinse. Then let them drain dry. For when soap dissolves instantly, it leaves no streaks nor spots.

Get some friend who dreads dishwashing to try Super Suds. Tell her to use it generally.

Steel Men Silent On Code Workings

Effect On Labor Relationship Is Not Known, As Yet

NEW YORK, Aug. 22.—Leading interests in the steel trade were unwilling today to express any opinions as to the working out of the industry's code.

The effect of the code on existing employee relationships, it was said, could only be determined after its application and as questions affecting labor arose.

Neither steel executives nor their legal advisers would undertake to

say how the companies will deal with the various workers' unions while the code is in operation. Some of the industry's representatives explained their reticence on the ground that they had not been able yet to study all the provisions of the code.

Airplane Pilot Crashes In Woods

WEST MIDDLESEX, Pa., Aug. 22.—Charles Brown, West Middlesex, miraculously escaped death yesterday when the wing of the airplane he was piloting crumpled at a height of several hundred feet and the ship crashed into a wooded section, a short distance from the Hartford Landing field.

Brown sustained minor bruises about the legs and was able to crawl from the wreckage unassisted. The plane was practically demolished.

The plane was owned by Scar Schultz, Masury, and Brown, who holds a limited commercial pilot's license was contemplating buying it.

TAX JUSTICE LEAGUE MEETS

Consider Plan Of Erecting High School Building In Wayne Township

ELLWOOD CITY, Aug. 22.—Members of the tax justice league of Wayne township met last evening in the basement of the Slippery Rock Presbyterian church with the president, Charles Wilson, presiding.

Arrangements for planning the building of a high school in Wayne township by means of a federal government loan were not completed last evening. A special meeting will be held on Tuesday evening, September 5, when the league desires to have every tax payer in the township represented so that they may completely understand the agreement and conditions that would be involved in the construction of this contemplated project.

After much discussion pro and con it was decided to drop the court petition to have the four voting precincts combined into one desirable place centrally located. The savings that would be effected by this movement would be comparatively small as the upkeep of the precincts is paid from county funds and it would entail considerable inconvenience to the residents.

After transacting routine matters and hearing addresses from candidates for county offices adjournment was taken to hold the next regular meeting, Monday night, September 18, at the same place.

B. F. Foresythe Dies At Hospital

Man Found Unconscious In Car Last Week, Passes Away Last Evening

ELLWOOD CITY, Aug. 22.—Never regaining consciousness for any considerable length of time, Benjamin F. Foresythe, state assayer inspector, who was found along the Wampum-New Gallie road unconscious in his car last Tuesday morning, some 15 hours after he had been suddenly stricken ill, passed away at the Ellwood City hospital about 6:20 last evening.

The deceased, who resided at Scenery Hill, Pa., left a week ago Monday for Wampum and this district some of his duties as state assayer inspector. While traveling on the Wampum-New Gallie road, which is dirt, Mr. Foresythe is stated to have suffered a stroke which practically rendered him speechless. One side of his body was later found to be paralyzed. Until his death he had been in the constant care of local physicians.

Many motorists passed the car in which Mr. Foresythe lay slumped over the steering wheel, but failed to pay any heed. Mr. Foresythe was found some 15 hours later by Clarence Hepler, a truck driver, who notified Constable Raymond Talley of Wampum. Constable Talley immediately ordered the unconscious man to the local hospital in an ambulance.

What the Blue Eagle means to you and how you can get it

The President's Reemployment Program is advancing to complete success. No such sweeping demonstration of the unity of a whole people against a national danger has ever been made. • In this vast surge of patriotism it is necessary to keep our common purpose always clear. When 125,000,000 people attempt to act as one man there are sure to be some misunderstandings. It is time to restate as clearly as possible the aim of the whole endeavor and the duty of each individual. • That is the purpose of this message—to state officially, briefly and clearly the simple rules for common guidance. • It is an evidence of the self-sacrificing service of the whole country that this newspaper has donated this space. In that spirit the whole country is acting. • This plan depends wholly on united action. That unity is almost complete. In the next few days let us close up every gap in the ranks and nail the flag of the Blue Eagle on the door of every man who works another man.

Hugh S. Johnson

OFFICIAL EXPLANATION OF THE PRESIDENT'S REEMPLOYMENT AGREEMENT (Sometimes misnamed "The Blanket Code")

This Agreement binds you to put its terms into effect from the time you sign the Certificate of Compliance until December 31, 1933; but when the President has approved a Code for your trade or industry, that Code takes the place of this Agreement.

You agree:

Child Labor

(1) After August 31, 1933, not to employ any person under 16 years of age, except that persons between 14 and 16 may be employed (but not in manufacturing or mechanical industries) for not to exceed 3 hours per day and those hours between 7 A. M. and 7 P. M. in such work as will not interfere with hours of day school.

This means that after August 31, 1933, you agree not to employ any children under 14 years old in any kind of business. You may employ children between 14 and 16 years old, but only for three hours a day and those hours must be between 7 in the morning and 7 at night, and arranged so as not to interfere with school. You agree not to employ any children under 16 years old in a manufacturing or mechanical industry, at any time.

Maximum Hours

(2) Not to work any accounting, clerical, banking, office, service, or sales employees (except outside salesmen) in any store, office, department, establishment, or public utility, or on any automobile or horse-drawn passenger, express, delivery, or freight service, or in any other place or manner, for more than 40 hours in any 1 week and not to reduce the hours of any store or service operation to below 52 hours in any 1 week, unless such hours were less than 52 hours per week before July 1, 1933, and in the latter case not to reduce such hours at all.

This means that you agree not to work any of the kinds of employees listed in this paragraph (except outside salesmen) for more than 40 hours a week. This paragraph covers all employees except factory workers, mechanical workers and artisans. However, no limit on hours and no minimum wage applies to purely agricultural labor, domestic servants, or persons working for you solely on a commission basis; but, if you have persons working for you who are guaranteed a base pay in addition to their commission, then their base pay plus commissions must equal the minimum wage.

This Agreement sets no maximum on the number of hours you may keep your business open. You agree not to keep your whole store, retail, or service establishment open less than 52 hours a week unless it was open less than 52 hours a week before July 1, 1933. Even then you agree to keep it open as long as you used to keep it open before July 1. Of course, if you have always kept your store open shorter hours in the summer months you can continue to do so this summer, but you should pay your employees the same amount each week that they will get when you keep your store open full time.

The stores with more than two employees which remain open the longest are contributing the most to carrying out the purpose of the Agreement. The stores with two or less employees which can be open only the minimum number of hours required, are doing the most to fulfill their part.

(3) Not to employ any factory or mechanical worker or artisan more than a maximum week of 35 hours until December 31, 1933, but with the right to work a maximum week of 40 hours for any 6 weeks within this period; and not to employ any worker more than 8 hours in any one day.

This means that if you are employing factory or mechanical workers or artisans, you agree not to work them more than 35 hours a week and not more than 8 hours in any one day.

When you have more than the usual amount of work to do and can't get additional workers, you may employ this class of employee up to 40 hours a week in any 6 weeks, but even in this case you must not work them more than 8 hours a day.

(4) The maximum hours fixed in the foregoing paragraphs (2) and (3) shall not apply to employees in establishments employing not more than two persons in towns of less than 2,500 population which towns are not part of a larger trade area; nor to registered pharmacists or other professional persons employed in their profession nor to employees in a managerial or executive capacity, who now receive more than \$35 per week; nor to employees on emergency maintenance and repair work; nor to very special cases where restrictions of hours of highly skilled workers on continuous processes would unavoidably reduce production but, in any such special case, at least time and one-third shall be paid for hours worked in excess of the maximum. Population for the purposes of this agreement shall be determined by reference to the 1930 Federal census.

This means that there are certain employees whom you may work longer hours than are allowed by paragraphs (2) and (3) P. R. A.

If your business is in a small town (population less than 2,500 by the 1930 census) and you do not employ more than two persons, the limit on hours does not apply to these employees. If your town is really a part of a larger business community, the limit on hours does apply to these employees.

The limit on hours does not apply to your employees who are wholly or primarily managers or executives, as long as they receive \$35 a week. Professional persons, like doctors, lawyers, registered pharmacists and nurses, may be employed without any limit on hours.

Where employees are doing emergency jobs of maintenance or repair work, they may be kept on the job for

longer hours, but you agree to pay them at least time and one-third for hours worked over the limits set in paragraphs (2) and (3) P. R. A.

There are a few very special cases where highly skilled workers must be allowed to work more than the limit of hours in order to keep up output on continuous processes, but, here again, you agree to pay them at least time and one-third for the hours they work over the limits set in paragraphs (2) and (3) P. R. A.

Minimum Wages

(5) Not to pay any of the classes of employees mentioned in paragraph (2) less than \$15 per week in any city of over 500,000 population, or in the immediate trade area of such city; nor less than \$14.50 per week in any city of between 250,000 and 500,000 population, or in the immediate trade area of such city; nor less than \$14 per week in any city of between 2,500 and 250,000 population, or in the immediate trade area of such city and in towns of less than 2,500 population to increase all wages by not less than 20 per cent, provided that this shall not require wages in excess of \$12 per week.

This sets out the schedule of minimum wages which you agree to pay all employees, except factory or mechanical workers or artisans. The wages are set out in terms of dollars per week, but if your employees are paid by the hour, you may use the following schedule:

| Place of Business: (Population by 1930 Census) | Minimum Wage: |
|---|--------------------|
| In cities of 500,000 or over..... | 37½ cents per hour |
| In cities of between 250,000 and 500,000 | 36¼ cents per hour |
| In cities of between 2,500 and 250,000 | 35 cents per hour |

If your business is in a town of less than 2,500 population, you agree to raise all wages at least 20%. If raising all wages 20% causes you to pay over \$12 per week, then you need only pay the \$12 per week.

If there is any doubt in your mind as to whether your business is in the "immediate trade area" of a city, you should ask your local Chamber of Commerce or other similar organization for a decision on the matter. The general rule is that the "immediate trade area" is the area in which there is direct retail competition.

(6) Not to pay any employee of the classes mentioned in paragraph (3) less than 40 cents per hour unless the hourly rate for the same class of work on July 15, 1929, was less than 40 cents per hour, in which latter case not to pay less than the hourly rate on July 15, 1929, and in no event less than 30 cents per hour. It is agreed that this paragraph establishes a guaranteed minimum rate of pay regardless of whether the employee is compensated on the basis of a time rate or on a piece-work performance.

This fixes the minimum wage which you agree to pay factory and mechanical workers and artisans. The following schedule may help you to find out the proper rate:

| If the rate for the same kind of work in the same community on July 15, 1929, was: | The minimum rate which you agree to pay is: |
|--|---|
| More than 40c an hour..... | 40c an hour |
| 30c to 40c an hour..... | The July 15, 1929 hourly rate |
| Less than 30c an hour..... | 30c an hour |

Instead of paying by the hour, you may pay by the week at a rate which gives the same weekly earnings for a week of 35 hours. For example, instead of 40c an hour, you may pay \$14 per week.

If you had a contract on or before August 1, 1933, with a learner or apprentice, you do not have to pay him the minimum wage, but no one should be classed as a learner or an apprentice who has ever been employed as a regular worker in your industry.

(7) Not to reduce the compensation for employment now in excess of the minimum wages hereby agreed to (notwithstanding that the hours worked in such employment may be hereby reduced) and to increase the pay for such employment by an equitable readjustment of all pay schedules.

Two official interpretations—No. 1 and No. 20—have been issued, explaining this paragraph. You can get copies of these at your local Chamber of Commerce or from the nearest N. R. A. representative.

Anti-Subterfuge

(8) Not to use any subterfuge to frustrate the spirit and intent of this Agreement which is, among other things, to increase employment by a universal covenant, to remove obstructions to commerce, and to shorten hours and to raise wages for the shorter week to a living basis.

This is the heart of the whole Agreement. The President's Plan is to cure this depression by increasing purchasing power. You can help him put this plan over by voluntarily signing this Agreement to shorten hours and raise wages. There is no force to compel you to sign this Agreement. It is not law. It is a personal agreement between you and the President. The President expects you to do everything in your power to carry out the spirit of the Agreement after you sign it. This means whole-hearted cooperation by really earning the Blue Eagle—not by just getting it and then not doing your part.

It would be a "subterfuge to frustrate the spirit and intent of this Agreement" to sign it and then put all of your employees on a straight commission basis—or any other trick to avoid doing what you promise to do.

HOW TO EARN THE BLUE EAGLE

1. Sign the President's Reemployment Agreement (P. R. A.).
2. Shorten Hours of factory workers to 35 hours per week, and of all other employees to 40 hours per week. (See paragraphs 2, 3 and 4, P. R. A.)
3. Raise Wages. (See paragraphs 5, 6, and 7, P. R. A.)
4. Don't Employ Child Labor. (See paragraph 1, P. R. A.)
5. Cooperate with the President. To do this:
 - (a) Live Up to the Agreement. (See paragraph 8, P. R. A.)
 - (b) Don't Profit. (See paragraph 9, P. R. A.)
 - (c) Deal Only with Others "Under the Blue Eagle." (See paragraphs 10 and 12.)
 - (d) Get a Code in by September 1st. (See paragraphs 11 and 13, P. R. A.)

HOW TO GET THE BLUE EAGLE

1. Sign the President's Reemployment Agreement.
2. Mail the Signed Agreement to your District Office of the Department of Commerce.
3. Put the Agreement into Effect (as outlined above in "How to Earn the Blue Eagle").
4. Sign a Certificate of Compliance. This is a slip distributed with the Agreement. It says: "I/We certify that we have adjusted the hours of labor and the wages of our employees to accord with the President's Reemployment Agreement, which we have signed."
5. Deliver the Certificate of Compliance to Your Post Office. The Postmaster will give you your Blue Eagle.

EXCEPTIONAL CASES

1. Where a Code Has Been Submitted. (See paragraph 13, President's Reemployment Agreement.) If your whole Trade or Industry is unable to live up to the President's Agreement, you should get together at once, with other employers in your Trade or Industry and, in a group, submit a Code of Fair Competition to N. R. A. in Washington.

Since it takes some time after a Code has been submitted for it to be finally approved, your group may petition N. R. A. to substitute the wages and hours provisions of your Code for the wages and hours provisions of the President's Reemployment Agreement.

If N. R. A. finds that the Code provisions are within the spirit of the President's Reemployment Agreement, it will consent to such substitutions. If N. R. A. does consent there will be an official notice in all the papers. You may then put the substituted provisions into effect in place of the indicated paragraphs of the President's Reemployment Agreement. In this case you should add to your Certificate of Compliance the following clause: "To the extent of N. R. A. consent as announced, we have complied with the President's Agreement by complying with the substituted provisions of the Code submitted by the Trade/Industry."

If the substitution is consented to after you have already put the President's Reemployment Agreement into full effect, and after you have already gotten your Blue Eagle, you may still put the substituted provisions into effect without signing another Certificate of Compliance.

2. Where a Code Has Been Approved. If a Code of Fair Competition for your Trade or Industry has already been finally approved by the President, you need not sign the President's Reemployment Agreement in order to get the Blue Eagle. The same is true if you are subject to a Code which has been put into effect temporarily by agreement between the President and representatives of your Trade or Industry; but in either of these cases, you must sign a Certificate of Compliance, adding to it the following statement: "We have complied with the operative provisions of the Code for the Trade/Industry."

3. Cases of Individual Hardship. (Paragraph 14, President's Reemployment Agreement.)

If there are some peculiar reasons why a particular provision of the President's Agreement will cause you, individually, a great and unavoidable hardship, you may still get the Blue Eagle by taking the following steps:

(a) Sign the Agreement and mail it to your District Office of the Department of Commerce.

(b) Prepare a petition to N. R. A. setting out the reasons why you cannot comply with certain provisions, and requesting that an exception be made in your case.

(c) Have this petition approved by your Trade Association. If there is no Trade Association for your business, have your petition approved by your local Chamber of Commerce or other representative organization designated by N. R. A.

(d) If the Trade Association, or other organization, approves your petition, send it to N. R. A. in Washington with this approval.

(e) Comply with all the provisions of the Agreement except the one you are petitioning to have excepted.

(f) Sign the Certificate of Compliance, adding to it the following clause: "Except for those interim provisions regarding wages and hours which have been approved by the Trade Association." Deliver this Certificate of Compliance to your Post Office. You will receive a Blue Eagle, but before displaying it, you must put a white bar across its breast with the word "Provisional" on it. If your petition is finally approved by N. R. A. you may take the bar down. If your petition is not approved by N. R. A. you must comply with the Agreement in full.

4. Union Contracts. If you have a contract with a labor organization calling for longer hours than the President's Agreement allows, and this contract was made in good faith by collective bargaining and cannot be changed by you alone, try to get the labor organization to agree to a reduction to the maximum hours allowed by the President's Agreement. If the labor organization will not agree, you may apply to N. R. A. for permission to work your employees as many hours a week as the contract calls for. Send to N. R. A. a request for this permission, with a certified copy of the labor contract and any statement of fact you desire. This application will be handled by N. R. A. in the same manner as an application for relief in cases of individual hardship, filed under paragraph (14) P. R. A., but it will not be necessary to obtain the approval of a trade association or other organization. If N. R. A. approves your application or is able to bring about any modification of the contract, you will then be granted permission to work employees in accordance with the contract as originally written or modified, and can then sign the Certificate of Compliance adding to it the following: "Except as required to comply with the terms of the Agreement in effect between the undersigned and the (Name of Labor Organization)."

Anti-Profiteering

(9) Not to increase the price of any merchandise sold after the date hereof over the price on July 1, 1933, by more than is made necessary by actual increases in production, replacement, or invoice costs of merchandise, or by taxes or other costs resulting from action taken pursuant to the Agricultural Adjustment Act, since July 1, 1933, and, in setting such price increases, to give full weight to probable increases in sales volume and to refrain from taking profiteering advantage of the consuming public.

The object of this paragraph is to prevent profiteering or speculation, so that prices will not rise faster than purchasing power, and destroy the President's plan. The danger to be avoided was pointed out by the President on June 16, 1933, in the statement which he made on signing the Recovery Act. He said, then:

"If we now inflate prices as fast and as far as we increase wages, the whole project will be set at naught. We cannot hope for the full effect of this plan unless, in these first critical months, and, even at the expense of full initial profits, we defer price increases as long as possible. If we can thus start a strong, sound upward spiral of business activity our industries will have little doubt of black-ink operations in the last quarter of this year. The pent-up demand of this people is very great, and if we can release it on so broad a front, we need not fear a lagging recovery. There is greater danger of too much feverish speed."

If you were selling your merchandise on July 1, 1933, below cost, you may take your cost price on that date as the basis for determining the allowable increase under this paragraph.

Cooperation

(10) To support and patronize establishments which have signed this Agreement and are listed as members of N. R. A. (National Recovery Administration).

The success of the President's Reemployment Agreement Program depends upon public support going to those who raise wages and shorten hours in accordance with this Agreement, in order to repay them for the extra expense which they have incurred in doing their part.

Codes

(11) To cooperate to the fullest extent in having a Code of Fair Competition submitted by his industry at the earliest possible date, and in any event before September 1, 1933.

This Agreement is a temporary measure to tide over the time from now until all employers and employees can cooperate under Codes of Fair Competition under the National Industrial Recovery Act. You agree, in this paragraph, to do all you can to have a Code submitted for your trade or industry before September 1, 1933.

Appropriate Adjustments

(12) Where, before June 16, 1933, the undersigned had contracted to purchase goods at a fixed price for delivery during the period of this Agreement, the undersigned will make an appropriate adjustment of said fixed price to meet any increase in cost caused by the seller having signed this President's Reemployment Agreement or having become bound by any Code of Fair Competition approved by the President.

This Agreement will, usually, increase the costs of those who sign it. The purpose of this paragraph is to pass on any such increased costs along from one signer to another, and so on to the consumer.

If you have a contract made before June 16, 1933, to buy goods at a fixed price, you agree to make an arrangement with your seller so that you pay him for the extra cost to him caused by his having signed this Agreement, or having come under a Code approved by the President.

In some cases the final buyer is the Government, which, under existing law, is generally not allowed to pay more than the contract price. The President has announced that he will recommend to Congress that appropriations be made to allow the Government to play its part by paying Government contractors who have signed the Agreement for their increased costs. The President has also appealed to the States and cities to take action permitting them to do likewise.

You should have no fear that, because your buyer has not signed, you will be left with the increased cost on you alone. The President expects every employer to sign this Agreement.

Substitutions

(13) This Agreement shall cease upon approval by the President of a Code to which the undersigned is subject, or the N. R. A. so elects, upon submission of a Code to which the undersigned is subject and substitution of any of its provisions for any of the terms of this Agreement.

As pointed out in the explanation of paragraph (11) P. R. A. above, the President plans to have all business govern itself under Codes, and therefore Codes should be promptly submitted. If N. R. A. finds that the wages and hours provisions of a Code which has been submitted are within the spirit of this Agreement, N. R. A. will authorize your industry to operate under those provisions rather than under the wages and hours provisions of this Agreement.

Exceptions

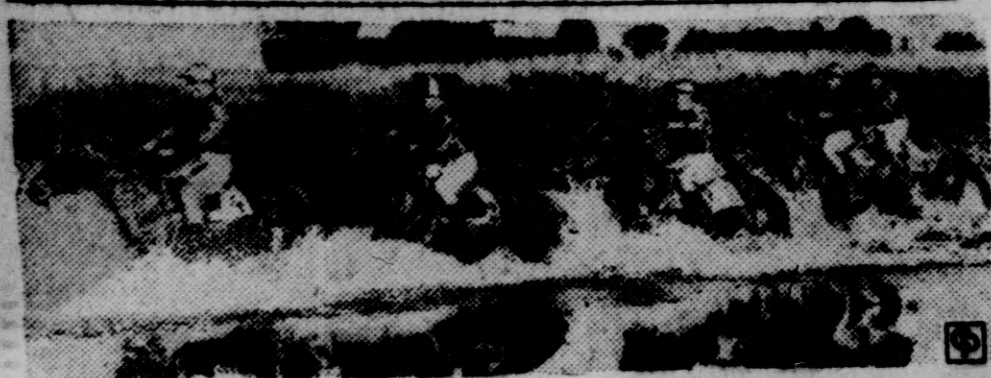

(14) It is agreed that any person who wishes to do his part in the President's Reemployment Drive by signing this Agreement, but who asserts that some particular provision hereof, because of peculiar circumstances, may create great and unavoidable hardship, may obtain the benefits hereof by signing this Agreement and putting it into effect and then, in a petition approved by a trade association of his industry, or other representative organization designated by N. R. A., may apply for a stay of such provision pending a summary investigation by N. R. A., if he agrees in such application to abide by the decision of such investigation. This Agreement is entered into pursuant to section 4 (a) of the National Industrial Recovery Act and subject to all the terms and conditions required by sections 7 (a) and 10 (b) of that act.

If you really want to do your part in the President's Reemployment Program, sign this Agreement. If some particular part of this Agreement causes you, as an individual employer, great and unavoidable hardship, you may obtain relief by taking the steps outlined under the heading "Cases of Individual Hardship."

Save this sheet as your official source of information. If there are any problems in your mind which are not cleared up by this explanation, get in touch with the official N. R. A. representative in your community.

Football Team To Meet Friday

Coach Philip H. Bridenbaugh Calls First Meeting For Taggart Field Friday

At 7 P. M. Bridenbaugh Will Greet Football Candidates For First Time

Coach Philip H. Bridenbaugh sounded the siren call today for the first meeting of the year of the 1933 New Castle High football candidates. The meeting will be held Friday night at 7 o'clock sharp at the stadium at Taggart Field. Every young man who intends to try out for the team this fall is expected to be present.

Bridenbaugh will give the candidates a talking to. He will outline to them the fundamentals of the game. He will impress upon their minds the seriousness of the training period. There will not be any tomfoolery allowed if the team goes to camp this year. It will be all business and football.

Tough Schedule

New Castle High faces a tough list of opponents this year. One of the toughest in the history of the school. The material this year is an unknown quality. True they beat Campbell and Canton McKinley, but that was in the spring, and now its fall, and maybe its a different looking group of boys.

Anyhow Bridenbaugh, Klee, Thomas and Gardner will meet with the young men at the stadium Friday night. Whether or not the team will be to Muddy Creek Falls this year is not known at the present time. The camp is a big help in conditioning the team.

It behooves all of the football aspirants with ambition to make the team to be at the stadium Friday night if at all possible. And don't be late in reporting, this is just a tip from one who knows that Bridenbaugh is a stickler for punctuality.

GOLF FACTS NOT THEORIES

ALEX. MORRISON says

Any player who worries about getting his hands in ahead of the club doesn't stand much chance of hitting a good shot.

His worry causes him to turn his hands forward so that the clubhead gets to the ball before his hands.

Of course, the hands and the clubhead should reach a point directly opposite the ball at exactly the same time, and they will in a well-timed swing.

But, the average player's timing is off so much that he despairs of attaining the correct position at the moment of impact.

He seeks only to avoid being early with his hands. If he would actually try to lead with his hands and just keep his chin pointed properly he'd be able to time his swing properly.

Legion Of Honor Match Draws Many

Final Match Of Season Will Be Played At Munny Course Next Monday

Last evening's match in the Legion of Honor series at the Munny course attracted one of the largest crowds of the season, and the final match next Monday evening should attract an exceptionally large crowd.

Captain W. J. Chapman's Cavaliers, though outnumbered, managed to turn in some good scores, and their average per man was below the average of Captain Sweeney's Swabshuckers.

Several newcomers were out last evening and enjoyed the play. Dr. Jay Reed was medalist for the evening with a 44, while a great number of the players were in the upper 40's for the nine-hole match.

Amateurs Are Liked By Fans

Amateur Boxers Displace Professionals In Surrounding Towns

It appears very much as though amateur boxers in the smaller cities of western Pennsylvania and eastern Ohio have stolen the limelight from the professional gentry, amateurs having displaced the pros in Farrell, Beaver Falls, Butler, Youngstown and they will make a strong bid to secure a healthy foothold here when they swing gloves next Monday night at the Castle bowl.

Three weeks ago several thousand fans witnessed the A. A. U. boxers at Farrell. An elimination tourney is now under way there and within a week or more the crowd will return to that size. At Youngstown last week the crowd numbered thousands which witnessed the glove action. Years ago the professionals were the drawing cards but not nowadays.

The fistful calendar which will be presented here contains local interest because a number of New Castle and West Pittsburgh boxers are on the docket. Each of these boys is striving to get somewhere and have the support of their fellow youths and townspeople. Rarely do they fail to show lots of action. In fact at the bouts in surrounding cities no one could say that the thrills were absent.

Favorite Boxer

For example take Tony Adamo. He is a seventh ward boy. He has been boxing for some months. During that time he has made a name for himself and the Jefferson A. C., the promoters of the show. He is to box probably Chet Prosser of East Liverpool who weighs 142 pounds. Tony is not averse to boxing anyone of his weight and ability. He hopes some of these days to climb up the ladder so that he can mill in the national tournaments.

Yankee Pagley, Jimmy Brownfield, Charlie Arkett, Emil Cannell and other lads in this section, want a chance to participate in the amateurs and according to the Jefferson A. C. will get the opportunity. Each of them are scheduled for three round bouts and there will be eight battles.

Owing to the short distance each boy has to travel he puts all his efforts into the game. The amateurs are very good sportsmen. Seldom does one hear a complaint when a decision is rendered against them. They have you, dash and plenty of fire in them and some day in the not too future a big tourney may be arranged.

HERE AND THERE IN SPORTS' LAND

Sixteen thousand fans paid \$21,000 to see Teddy Yarosa defeat Vince Dundee for the Pennsylvania state middleweight championship in 10 rounds at Forbes Field, Pittsburgh, last night.

A dozen spectators including the recreation director were injured at a municipal ball game when it is said a melee was precipitated by Johnny Bates, former big leaguer, and a spectator. Al and Bob Bates and Dave Alexander are being held. They resisted arrest when a squad attempted to break up the riot at Steubenville.

Lee Campbell Breaks Leg In Mushball Game

Lee "Newt" Campbell, Star Shortstop For Spencers, Breaks Right Leg

Lee "Newt" Campbell, star shortstop for the Spencer mushball team is in the Jameson Memorial hospital today with a broken right leg. Two small bones just above the ankle are broken. It is understood the accident occurred last night at the Rose Avenue field in the regular East Side Mushball league game that brought together the East Side Merchants and Spencers. Campbell was covering second base in the final half of the third inning. McKissock was the batter and he hit a long fly into the outfield. McKissock tried to stretch the hit into a double and in running into second base crashed into Mr. Campbell with sufficient force to snap the bones in his right leg.

Unfortunate Accident
It was an unavoidable accident, and one that might have happened to anybody. The fact that Mr. Campbell's body was tense with the expectation of making the catch and tagging the man out, might, have had something to do with it. McKissock feels badly about the accident, and was consoled by his teammates.

Mr. Campbell will be in the hospital for several weeks, and his mushball playing for this year is all over. He has been a mainstay of the Spencer team all season and his loss will be keenly felt.

He was taken immediately to the hospital after it was determined that the leg was broken. He is the son of Mr. and Mrs. Newt L. Campbell of 921 West Washington street.

Benefit Game
The score of the game was 2-2 at the end of the third inning and the game was not continued out of respect for the injured member of the Spencer team. The game will be played over at the Rose Avenue field and will be in the form of a benefit game for the injured young man. President Charles F. Waller of the East Side league graciously ordered a benefit game for Campbell and will see to it that a number of tickets are sold for the game.

As we understand it, we have to free Cuba only two more times to make it permanent.—The Detroit News.

Play Interesting Match Saturday

Best-Ball Foursome Makes Birdies And Eagles On Munny Course

One of the most interesting matches played at the Munny course this summer took place on Saturday during the qualifying round for the Munny championships.

Roger Molesworth and Robert Thompson were paired against William G. Fleming, manager of the Munny course, and Bill Nunn, in a best ball foursome, which was won handsily by Nunn and Fleming.

Nunn was three under par for the first nine and one over on the second, bagging three birdies on the first nine and two on the second. Fleming, on the long 514 yard No. 15 hole made an eagle, his second shot from the tee with a brassie, being twelve feet beyond the pin. He sank his putt for the third stroke on the par five hole.

Nunn and Fleming's best ball for the eighteen holes was eight under par, while Molesworth and Thompson's best ball was 69, four under par.

Elders Defeat James A. C. 11-1

Butler Limits James A. C. To Four Hits As Elders Pound Funkhouser Heavily
